Who we are

Security 360 is a veteran-owned cybersecurity firm. Since 2012 we have worked inside federal programs as the security team: getting systems authorized, assessing their controls, and running the security program after go-live. Every award in our history has been as a subcontractor, and we are built to be easy to put on a team.

Core capabilities

000°	**Authorization and RMF**	Authorization packages, boundary and control-inheritance design, POA&M management and continuous monitoring.
060°	**Security assessment**	Security control assessments, contractor security assessments under IRS Publication 4812, and pre-assessment readiness reviews.
120°	**Program leadership**	Senior vCISO, ISSO, ISSM and information assurance lead roles, part-time or full-time.
180°	**Engineering and architecture**	Security architecture and engineering for cloud, hybrid and on-prem systems, including CDM programs.
240°	**CMMC readiness**	Gap analysis, remediation planning and assessment-ready evidence for defense suppliers.
300°	**AI security and governance**	AI risk reviews, governance and policy, and a fractional AI officer.

Past performance

Census Bureau	**2020 Decennial Census Technical Integrator.** RMF lead for the integrator's 52-system hybrid multi-cloud environment. 55 authorizations in six months.
IRS	**Submission and remittance processing.** Information assurance lead on the program for more than 16 years, across four successive prime contractors.
USAID	**Continuous Diagnostics and Mitigation.** Program management and integrated project team lead.
GSA	**18F, cloud.gov and login.gov.** ISSO and security controls assessor.

What we bring to a team

Past performance
Federal citations a prime can use in a proposal.

Key personnel
Senior, named security leads, available for orals.

Small-business credit
A veteran-owned small business that is already an employer and carries cyber insurance.

Worked under

Leidos, Lockheed Martin, Northrop Grumman, Valiant, NorthRamp

Agencies supported

Internal Revenue Service, Census Bureau, USAID, GSA, NIST
